Professional Summary

Results-driven Python Developer with 1.5 years of professional experience in Python development, backend automation, data processing, and scalable web applications. Proficient in Python, Django, Django REST Framework, RESTful APIs, MySQL, PostgreSQL, Celery, Redis, JWT Authentication, and AWS S3**.** Experienced in developing automation tools, data pipelines, and maintainable backend solutions. Currently expanding expertise in AI technologies, OpenAI APIs, and LangChain through hands-on project development, while strengthening full-stack development skills with React.js and Tailwind CSS**.**

Skills

- **Programming Languages & Backend Frameworks**: Python, SQL, JavaScript, Django, Django REST Framework(DRF)
- **Frontend Technologies**: React.js, Tailwind CSS, HTML5, CSS3, Bootstrap
- **Database & API Tools** : MySQL, PostgreSQL, Redis, RESTful API's, JWT Authentication, Postman
- **AI & Data Processing**: OpenAI API, LangChain, OpenCV, PIL, COCO, XML, YAML, YOLO, CSV, JSON
- **Cloud& Version Control**: AWS (S3, IAM), GitHub
- **Soft Skills**: Problem-solving, Teamwork, Adaptability, Communication, Time Management, Attention to Detail

Work Experience

Webfolks from Infolks Pvt Ltd Mar 2024 — Jul 2025
Junior Python Developer *Mannarkkad, Kerala*

- Optimized data pipelines for converting datasets across COCO, XML, YAML, YOLO, CSV, and JSON formats.
- Automated annotation workflows using Python, improving team efficiency and reducing manual effort.
- Developed visualization and QA scripts with OpenCV and PIL for rapid annotation validation.
- Evaluated new annotation tools and provided technical feedback to improve workflow performance.
- Managed AWS S3 buckets, configured IAM policies, and optimized data storage processes.
- Collaborated with project coordinators and team leads to meet technical requirements and delivery timelines.

Beinex Consulting Pvt Ltd Sep 2023 — Jan 2024
Backend Development Trainee *Kochi, Kerala*

- Developed backend services using Django and Django REST Framework, implementing clean, scalable API design.
- Created and tested RESTful API endpoints, incorporating serialization, validation, and authentication.
- Implemented backend modules adhering to MVC architecture and REST principles.
- Enhanced Python and Django proficiency through daily coding, debugging, and project development.
- Collaborated with mentors and peers during reviews, improving code quality, documentation, and problem-solving skills.

Wexo Ventures Pvt Ltd Dec 2022 — Mar 2023
Python Intern *Kochi, Kerala*

- Supported daily operations, handled documentation, and assisted the core team. Assisted in resolving backend issues, improving system stability and enhancing overall user experience
- Contributed to the development and configuration of franchise management modules, supporting smoother internal operations.
- Worked closely with senior developers to identify, debug, and fix production issues, reducing turnaround time.
- Applied Python-based solutions to support backend workflows and data handling tasks.
- Gained real-world exposure to collaborative development environments, version control, and production support

Projects

InterviewIQ AI – Smart Interview Assistant

AI-Powered Interview Preparation Platform

- **Technology:** Python, Django, Django REST Framework, React.js, PostgreSQL, JWT, Celery, Redis, OpenAI API, LangChain, Whisper
- **Core Features:** Developing a full-stack interview preparation platform with resume management, ATS analysis, job matching, AI-generated interview questions, coding assessments, and personalized learning roadmaps.
- **Architecture:** Designed a modular Django REST architecture with PostgreSQL, secure JWT/OTP authentication, and React.js interfaces, with AI workflows using OpenAI API and LangChain.

ResolveX – Smart Ticket Resolution System

Role-Based Ticket Management Platform

- **Technology:** Python, Django, Django REST Framework, React.js, MySQL, JWT, Celery, Redis, Chart.js/Recharts
- **Core Features:** Developed a full-stack ticket management system for creating, assigning, tracking, and resolving service requests with fine-grained role-based access control.
- **Architecture:** Implemented RESTful APIs with Django REST Framework and asynchronous notification processing using Celery and Redis, along with reporting, filtering, CSV exports, and interactive dashboards.

Education

MES College of Engineering (MESCE) Aug 2018 — Jan 2021
Master of Computer Applications (MCA) *Malappuram, Kerala*

Certifications

Python–Django Full Stack Development - Luminar Technolab Kochi Mar 2022 — Sep 2022
